

The African Golf Company is a IT service provider that combines marketing and technology solutions for golf estates, golf clubs and golf organisers.

## Online Golf Booking

The future is here, – the African Golf Company has developed the perfect online solution for golf clubs to receive online tee time bookings. The golf club is in total control of which tee times should be available to which golfers for any time, date or period. Members, groups, organisers, tour operators, and visitors can have different levels of entry to the system. The application can be set by the golf club on all details, times, tariffs, dates, rentals, etc. The application includes management reports and administrative tools – invoices, receipts, online payments, debt orders, etc.

We offer our Tee Time application FREE to golf clubs.

The partners within the African Golf Company are experienced golfers and have extensive knowledge of the golf industry. This resulted in the development of golf specific web based applications for golf clubs and golf event organisers:

- Tee Time reservation and booking application
- Members / players administration application
- Tournament and events application (see [www.sadga.co.za](http://www.sadga.co.za))

The applications are designed for concurrent and ‘real time’ use. Extra care has been given to the ease of use for golf club members and management. Included features are SMS notification, online payments and reports. The applications are licensed to the clubs and operated as an ASP in a secure server environment. Support, back-ups, maintenance, hosting and upgrades are all included. The applications can be integrated into existing or new golf club websites. Visit [www.africangolfcompany.com](http://www.africangolfcompany.com).

At TheFACTORY Business Solutions we manage the skills and resources needed to successfully develop and implement internet projects. A professional internet presence is a must for today’s companies and organisations. The development, management and marketing of this internet presence is what we do at TheFACTORY Business Solutions. Since 2004 we are proud sponsors and supporters of SADGA.
